9,523

food insecure families with pantry staples, meat, eggs, milk, fresh produce, hygiene, personal, and home care items, & diapers.

37,596

Individuals were served

328

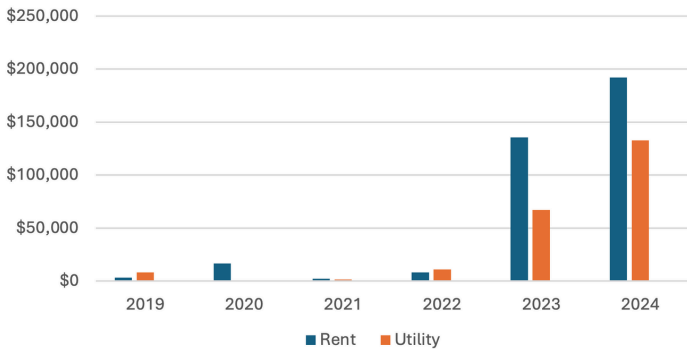

Families were stabilized with rental assistance that prevented eviction

468

Families' utility assistance prevented disconnection or restored service

Growing Need and Rising Costs

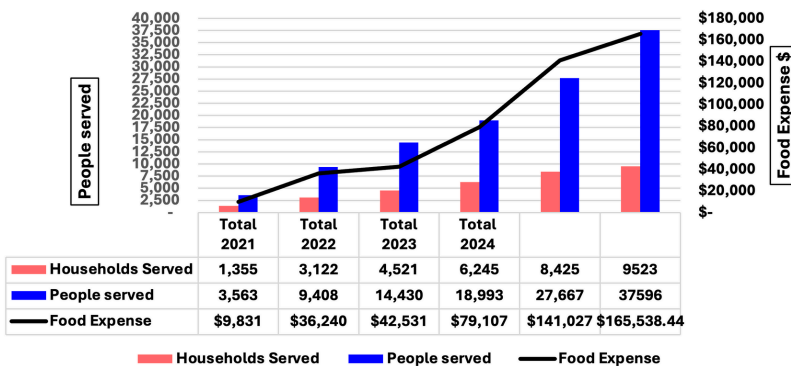

RENT AND UTILITY ASSISTANCE 2019-2024

Every utility in St. Louis has increased its rates. Combined with more extreme weather, families face dramatically higher utility costs. While rents have risen sharply since the pandemic, wages and fixed benefits (disability, Social Security, SSI) have not kept pace.

Our family utility assistance increased by 100% from last year.

St. Pius V Food Assistance

Rising food costs continue to affect income-strapped families. Our food pantry has increased donations of staples and "distressed" food to meet these growing needs.

This year's food donations were valued at over \$240,000. Purchased food totaled \$165,538.

Additional Impact:

Networks of Support & Opportunity

Health

Affinia Health & Oak Tree Health helped pantry visitors apply for health insurance, make appointments, and create a medical home. Affinia provided COVID vaccinations. A Deaconess Parish Nurse provided flu shots, checked blood pressure, and answered health questions.

Public Engagement

We invited neighbors who visited the pantry to register to vote or update their registration if they had moved.

Utility Assistance

St. Pius V partnered with Ameren and Spire workers who trained volunteers and helped fill out energy assistance applications.

Safety

The pantry offered free gun locks through the Lock it for Love Program of Women's Voices Raised for Social Justice. We encouraged safe storage to protect children and individuals with suicidal ideation from accessing firearms.
